TELEMARC CONCEPTS, INC.™

Telecommunication Services

iPBX Summary

Next generation technology has revolutionized the PBX industry. Telemarc's iPBX is one of the most advanced and fully featured VoIP phone systems in the industry. Telemarc offers iPBX in a variety of configurations, each of which come with the same powerful and convenient PBX calling features:

Hosted iPBX - subscribe to the iPBX service hosted by Telemarc at its secure facility for a low monthly rate

On-Premises iPBX - purchase the iPBX software and server from Telemarc and house it at a facility of your choosing

Co-located iPBX - purchase the iPBX software and server from Telemarc and have us house it at our secure facility

iPBX Software - lease the iPBX software and install it on a server of your choosing.

Regardless of the option you select, you can order our affordable, high-quality VoIP phone service to work in conjunction with your iPBX system.

Telecommunication Services

cFax Summary

Electronic Fax Management.

cFax uses the power of the Internet to send and receive faxes on your computer. The old fax machine in the corner is a thing of the past. You can send and receive faxes as easily as email. cFax uses the speed and reliability of the Cloud to send and receive faxes to anyone, anywhere.

Features

- Go Green — eliminate paper waste by only printing the faxes you need
- Toll-free and Local Fax numbers included
- Send and receive faxes as email; receive email notifications when faxes arrive
- Never a busy signal or out-of-paper error
- No additional hardware or phone lines required
- Avoid expensive maintenance costs
- Simple setup and instant activation
